

Main Activity Screen: Here users will choose a building in which they want find an empty room. Users will choose a building by clicking one of the building in the picture, which will then direct them to the Room List Activity.

After the user chooses a building from the Main Activity Screen they will be directed to the Room List Activity similar to the one below, where the list of available rooms will be listed below. The user will also have the option of searching through the list for a particular place if the list seems too long.
